Mr. William Sullivan
Corporate Counsel
Lockheed Aeronautical Systems Company
4500 Park Granada Blvd.
Calabasas, CA 91399

Dear Mr. Sullivan:

As you know, the United States Environmental Protection Agency (EPA) and the Los Angeles Department of Water and Power are conducting an investigation of groundwater contamination in the San Fernando Valley to determine the nature, cause and extent of contamination in the San Fernando groundwater basin. The investigation will also assess the effects of the contamination on the environment and public health. Additionally, part of this investigation will include identifying sources of contamination within the groundwater basin.

In order to further this investigation we are requesting all additional information responsive to the requests below that you have collected since your last submission. Under the provisions of Section 104 of the Comprehensive Environmental Response, Compensation and Liability Act of 1980 (CERCLA), 42 U.S.C. 9604, and Section 3007 of the Resource Conservation and Recovery Act, as amended by the Solid Waste Disposal Act Amendments of 1980 (RCRA), 42 U.S.C. 6927, the Administrator of the Environmental Protection Agency has the authority to require any person who generates or has generated or otherwise handled hazardous wastes and or hazardous substances to furnish information regarding its operations. Please submit by August 25, 1989, the following information:

1. All analyses from sampling of monitor and supply wells, underground tanks, soil samples, and soil gas sampling conducted at your facility. Please include any reports written by consultant(s) about these sample analyses.

2. Plans to perform any investigations of the soil, water (ground or surface), geology, hydrogeology, or air quality on or about the site.

3. Correspondence between your company and the Los Angeles Regional Water Quality Control Board and any other relevant state or local agencies (In the future please 'cc' the USEPA on all such correspondence.).

Your cooperation is greatly appreciated. If you have any questions please do not hesitate to call either of the project managers for the site, Alisa Greene at (415)974-9096 or Chris Mastaloudis at (415)974-9222, unless you are an attorney representing a concerned party, in which case you should contact Marcia Preston at (415)974-9578.

Sincerely,

Jeff Zelikson

Director

Hazardous Waste Management Division
